jenis	Pantau
status	Aktif
foto	 <p>The photograph shows a groundwater monitoring well (sumur pantau) protected by a blue metal cage. A white sign is attached to the cage, providing details from the Indonesian Geological Agency (Badan Geologi). The sign lists the well's name as 'SUMUR PANTAU SARINDAM' and its depth as 'KEDALAMAN 150 m'. It also provides a table of depth ranges for different locations: Sarindam (60-88 m), Tangerang (78-84 m), Kosambi (102-126 m), and Salembaran. The sign is mounted on a concrete base. In the background, a yellow truck is partially visible.</p>
